The Marte Meo Program was developed by Maria Aarts in the late 1970's in the Netherlands, and is now established in over 40 countries. It is a video based intervention program that starts at the level of the client in everyday interactions. The intervention provides a practical approach to supporting development through relationships in everyday communication. It is a Social Emotional Developmental Support process that activates development and restores natural developmental processes. Whilst it initially started in working with children and families it is now used in many other sectors, eg Aged Care and Adult Disability. Marte Meo has demonstrated its value in these sectors in a number of ways including reducing aggression, and improved relationships with the family. It has also been very effective in working with children with Autism and ADHD. This one day introductory workshop will introduce participants to key ideas about Marte Meo.

The Presenter

Sally Watson is a social worker with over 30 years experience in a range of settings. Sally began her Marte Meo training with Maria Aarts in 2008 and in 2012 became a Licensed Supervisor. Sally runs regular Marte Meo trainings at all levels, mostly in South Australia, but has also run 2 Practitioner Level Trainings in WA and is currently running a Therapist training in WA.
