Upcoming meeting:

Speaking for the Baby: Linking Text and Illustrations

This presentation launches a new series of free resources for parents and perinatal health professionals: a suite of new illustrations representing positive father-baby interaction based on SMS4dads messages.

Bronwyn Leigh and Richard Fletcher will share the theoretical and research underpinnings to these illustrations and explore how they might be used to help parents curiously wonder about the internal experience of their baby.

Wednesday
12 November 2025
7-8:30 PM AEDT
